

GENEROSITY MONEY ACTIVITY

Creating a giving jar for money donations is a fantastic way to instill a sense of Generosity in even the youngest members of your family. This will teach them about financial responsibility, empathy, and the joy that giving can bring.

DIRECTIONS

1. Choose a jar/container that is transparent.
2. Gather art supplies, and color the Giving Jar Sticker. Use sticker paper to print the PDF if possible.
3. Explain to each family member that the purpose of the jar is to collect money that will eventually be donated.
4. Invite family members to contribute loose change until the jar is full.
5. When the Giving Jar is full, sit down as a family and decide where you want to give the funds. Maybe it's the general offering at church or a gift card for a family that recently lost a loved one. Choose a person or place that is personal for your kids so they can experience the joy and impact of giving.
6. Take time to express gratitude, and discuss the impact that your family's donations can make.
