

LAND OF ATTENTION OR LAND OF DISTRACTION?

In the book, Franny struggles with being in The Land of Attention vs. The Land of Distraction. Ask your children to cut out the pictures and categorize them in the correct land. If you want more of an interactive experience, give your child a large piece of paper. Ask them to draw pictures of things that distract them from paying attention to others. Then ask them to draw the people they can give their Generous Attention to.

LAND OF ATTENTION

LAND OF DISTRACTION
