

# THE DONATION DASH GAME

Koko searched her house to find items she could share with Marco to make his heart happy. We all have items that we can donate. Play the Donation Dash game as a family!

## DIRECTIONS

1. Set a timer for 10 minutes. Hand each family member two laundry baskets or buckets to collect items. Start the timer and send everyone into their rooms for the clean-up challenge.
2. During the clean-up, do a quick sort. Have each family member sort items into two categories: **things to keep** and **things to donate**.
3. When 10 minutes are up, have everyone bring their donation baskets to the living room.
4. Ask each person to display their items and discuss why they want to donate them.
5. Lastly, take the donated items to a local charity or donation center as a family.
